

It is my understanding that a change in the priority given to Low Power FM would affect the many translators that K-LOVE and other christian broadcasting stations use. I enjoy many of these stations as I travel about and find them to be positive and encouraging music choices when compared to most of the trash that is on the airwaves today. I and my family would be very displeased if anything were to happen to limit or displace the enjoyment we receive from these stations. Please do not jeopardize the ability of these stations to provide the great, quality christian music and programing. Thank you.

Phil
